Muhammad Usama

Full Stack PHP Developer

Profile

Experienced Web Developer with over 3 years of expertise in Laravel, CodeIgniter, WordPress, Shopify, Wix, HTML, CSS, React, and Angular. Proven track record of delivering high-performing websites and solving complex development challenges. Specialized in SEO and web optimization, ensuring projects not only meet technical standards but also achieve strong online visibility.

In addition to frontend and backend development, proficient in Linux and Windows server administration, including deployment, DNS management, and email server configuration. Hands-on experience with Google Cloud Platform, AWS, and popular hosting control panels such as cPanel, WHM, CyberPanel, and Plesk. Dedicated to building secure, responsive, and user-focused web applications that align with business goals and client visions.
