Muhammad Usama

Full Stack PHP Developer

Profile

As a Lead Developer at **SEO Site Checker**, I've played a key role in building and scaling the platform from backend architecture and frontend design to server management and optimization. With over **3 years of experience** in **Laravel, CodeIgniter, WordPress, Shopify, Wix, HTML, CSS, React, and Angular**, I specialize in creating fast, secure, and SEO-optimized websites that deliver real results.

I've implemented efficient login and user management systems, streamlined workflows, and ensured smooth platform performance across different environments. Beyond development, I manage **server deployment, DNS configuration, and email systems** on both **Linux and Windows servers**, with deep experience using **cPanel, WHM, CyberPanel, and Plesk**.

I also handle **Google Cloud Platform** and **AWS** integrations, ensuring seamless scalability and uptime. My focus is always on building **secure, responsive, and user-focused applications** that align perfectly with business goals and client needs.

Experience

SEO Site Checker 2023 Present
Full Stack Developer & Co-Founder

Full-Stack Developer of **SEO Site Checker (seositechecker.pro)**, helping thousands of users perform comprehensive on-page **SEO audits, analyze optimization insights, and monitor real-time website performance**.
